

WDV101 Intro to HTML/CSS

Submitting Case Studies/Homework

Each time you complete the case studies for a tutorial do the following:

Move finished work to Finished Homework Folder

1. Go to your WDV101 Finished Homework folder.
2. Create a new folder in for the tutorial that you just completed (In the upper menu select File>New Folder). Name the new folder the appropriate tutorial.
3. Move the case folders containing the files you completed from the Original Tutorial Files folder into the Tutorial folder that is in the Finished Homework Folder.

Update Homework page

4. Open the homework.html page in a text editor (Dreamweaver, Notepad, or Text Wrangler).
5. Add the h3 heading for the tutorial you just finished
Example = `<h3>Tutorial 3</h3>`
6. Add the links to the case studies in that tutorial.
Example = `<p>Case 1</p>`
7. SAVE the homework.html file.
8. CHECK all links to be sure they all work!

Transfer Files to Host Server

9. Open FileZilla.
10. Go to the Site Manager (click on the icon in the upper left corner).
11. Select the WDV101 folder, be sure to also enter 21 in the port section.
12. Click the Connect button.
13. Be sure the window on the left shows the files in your Finished Homework Folder.
14. Move the updated homework.html file over to the right window. This places this file on your host server. Select "overwrite" to update the file on your server.
15. Move the new tutorial folder also over to the right window.
16. CHECK the homework page in a browser to ensure all links work.
